

FIG. 1 is a perspective view of a curved, elongated, and tapered structure 38. The structure has a series of parallel, curved lines 12 on its top surface. A cross-section 10 is indicated by a dashed line. The cross-section shows a central core 20 surrounded by concentric layers 14, 18, and 22. The outermost layer 24 is shown in a cross-section 26. The structure 38 is shown in a perspective view, with a dashed line 12 indicating the cross-section 10.
